

## ABOUT JEANNETTA JORDAN

With more than 25 years of experience in design, Jeannetta Jordan expertly transforms spaces into functional, stylish areas. Her attention to detail, creativity and innovation result in spaces that exceed expectations and produce extremely satisfied clients.

Before starting Jeannetta Design Associates in 1986, Jeannetta worked for several highly respected design firms throughout the Southeast. She began JDA so she could provide interior design consulting services to commercial office companies – offering fieldwork, space planning, specifying, presentation materials and project management for installations. In 1991, she incorporated JDA as a dealership/design group and together she and Kim began providing custom, turn-key interior design for financial institutions, corporations and colleges and universities.

Jeanetta is a LEED-accredited professional, a registered interior designer with the state of Georgia, and a member of the International Interior Design Association. She holds a bachelor of fine arts degree from the University of Georgia's Art School of Interior Design.

Together, she and her husband Kim have two wonderful children, Katrina and Kody.
